## PROJECTS

---

### NeXoCard | React JS | Firebase | [Code](#) | [Live](#)

- Developed AI-powered flashcards and interactive quizzes to boost user learning.
- Implemented a study chatbot and a gamified memory game with a points-based leader board.
- Attracted 111 users to the waitlist within 2 days of launch, showcasing strong initial user interest.

### The Pacer | React Js | [Code](#) | [Live](#)

- Developed a single-page website using React JS for purchasing sneakers.
- Implemented a sleek, user-friendly interface with detailed product listings.
- Enabled a seamless purchase process by allowing users to click on a sneaker and buy it directly.

### Beacon | React Js | Spring Boot | MySQL | [Frontend Code](#) | [Backend Code](#) | [Live](#)

- Developed a full-stack app for user sign-up, login, and personalized dashboards.
- Enabled users to view, like, and save blogs for later, write, publish, and delete their blogs.
- Integrated a speech feature using React Speech Kit for users to listen to blogs, and implemented functionality to view trending blogs based on likes and views.
